February 19, 2026

Dear Minister Moyes,

Further to your request for the Clean Environment Commission (CEC) to hold a public hearing relating to the Crystal Springs Colony domestic wastewater treatment lagoon, the CEC is requesting additional time to conduct the hearing and produce a final report, including recommendations and licensing conditions. This request is due to delays in procurement of technical services and the need to ensure adequate time for all procedural steps relating to the preparation for a hearing.

The following dates have been secured for the hearing: April 21 - 23, 2026. We will endeavour to provide our report in a timely way, as soon as possible after the close of the hearing and ask you to revise your request to June 26, 2026.

Kind regards,

Aimée Craft
Chairperson
Manitoba Clean Environment Commission
