Dear Aimee Craft,

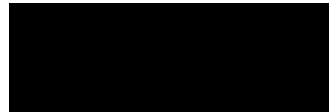

Thank you for your letter of February 19, 2026, requesting additional time to complete the public hearing and final report on the Crystal Springs Colony domestic wastewater treatment lagoon.

On September 2, 2025, I asked the Clean Environment Commission to finish its hearing and review by November 1, 2025, and submit a final report with recommendations by January 15, 2026. I recognize more time is needed due to delays in procuring technical services and ensuring a thorough process. The Commission has now scheduled hearings for April 21 through 23, 2026.

I am extending the deadline for the Commission to submit its final report with recommendations and licensing conditions until May 29, 2026, following the public hearing and review.

If you have any additional questions or would like to discuss this matter further, please contact Agnes Wittmann, Director, Environmental Approvals Branch, at EABDirector@gov.mb.ca or 204-945-8321.

Kind Regards,

Honourable Mike Moyes
Minister
