Subject: Crystal Spring Colony wastewater treatment lagoon- RM Armstrong
Date: November 1, 2025 9:17:30 AM

Dear sir/ Madam,

I am one of the concerned stakeholders owning land downstream from this proposed facility.

I believe a wastewater lagoon directly on the watershed to Lake Winnipeg will inevitably lead to negative impacts on the water quality of Willow Creek and the lake. We are past the tipping point for allowing negative cumulative effects of untreated wastewater being dumped in the lake just so the facility owners can save money!

Has a date been announced for the public hearing and review of this project? I would like to follow this process as it concerns me greatly.

Thank you
Inga Thorsteinson
