**Subject:** Opposition to Crystal Springs Colony Wastewater Treatment Lagoon Proposal  
**Date:** April 6, 2026 6:23:59 PM

---

To Whom it may concern,

I am writing to express my opposition to the proposed Crystal Springs Colony Wastewater lagoon. As a concerned citizen and frequenter to Lake Winnipeg's cottages I feel it is my duty to express my distress at the notion of adding further pollution to the already vulnerable ecosystem of the lake and the surrounding wetlands. Lake Winnipeg is a precious natural habitat that brings so many benefits to our Province, it would be a travesty to allow it to be further harmed by sewage.

It is my sincere hope that the many messages sent in by concerned members of the community will find their mark and the wastewater lagoon development will not go forward.

Sincerely,

Sam McLean
