Subject: Crystal Springs Colony Wastewater Treatment Lagoon Proposal
Date: April 6, 2026 7:11:47 PM

As citizen of Manitoba, a property owner and taxpayer in the rural municipality of Gimli, and as a cottager with three generations of family on the shores of Lake Winnipeg, I am profoundly concerned for the preservation of the environment and specifically the water quality and wellbeing of the flora and fauna in and around Lake Winnipeg and do strongly object to the proposed Crystal Springs Colony Wastewater Treatment Lagoon and to any further proposal for such a facility at any location affecting Lake Winnipeg now and in the future.

Respectfully
Barbara A Smith
